

 CONSORCI <b>barcelona</b> ZONA FRANCA	BARCELONA FREE TRADE ZONE CONSORTIUM	<b>BARCELONA FREE TRADE          ZONE CONSORTIUM -          HEALTH AND SAFETY          POLICY</b>
	AS-01 Health and Safety Policy	

The Consortium provides services aimed at promoting, supporting and taking part in developing the socio-economic environment of Barcelona and Catalonia. It also fosters initiatives to create wealth and employment, playing a leading role in the safety and health of its workers.

The following principles govern the actions of the Barcelona Free Trade Zone Consortium in the field of health and safety at work:

# C ommitment to people   Z ero accident zone   T raining G ood working environment

## C ommitment to people

- ↳ Making sure the preventive culture is an inherent part of all the activities carried out by the Consortium.
- ↳ Striving to continuously improve the health and safety conditions of the Consortium's employees or employees working on its behalf, both in prevailing legal issues and in those areas the Consortium management wishes to adhere to.

## Z ero accident zone

- ↳ Preventing risks at source and acting with due diligence.
- ↳ Achieving safe and healthy workplace conditions in all our centres and areas of action.

## T raining

- ↳ Guaranteeing knowledge management as a key part of its employees' training and for them to safely perform their tasks.

## G ood working environment

- ↳ Motivating all Consortium employees or employees who work on its behalf, and getting them involved, with the aim of achieving an excellent working environment. Enabling apt, agile and effective communication channels for all the Consortium's employees and all employees working on its behalf for them to consult and find out information, and to take part in activities.
