WHO ARE WE ?

The **Logistics 4.0 Incubator** is a project led by the **CZFB** with the support of the **Fundación Incyde** and the **ERDF Funds** which started its activity in July 2023.

Our goal is to select the most promising and interesting startups in the field of the application of Industry 4.0 technologies for the logistics sector.

They will have mentoring on their business model, their technical/business activity, access to funding sources, access to networking activities and participation in national and international events, among other activities, while being part of it.
